 No (Reason: _____)

Approved by: _____ Date: _____

APPLICATION GUIDELINES

- Rebates are available to Danvers' Residential Electric Account holders with active accounts in good standing. If account is not active or in good standing, the rebate will not be processed until the account is paid in full—you will be contacted by a DPW representative.
- Application requires the proof of purchase with a clear line item with the **model number** displaying the product purchased in the form of the sales receipt dated on or after January 1, 2013, a **completed and signed** Rebate Application, and a copy of the yellow **Energy Guide Label**. If an application is submitted incomplete, it will be returned to the applicant.
- Only **EnergyStar** refrigerators qualify. Applicant is responsible for verifying and providing documentation that the refrigerator is EnergyStar rated.
- **Receipt of Disposal** for room air conditioners must be obtained from the Transfer Station, Clerk's Office or Business Division to qualify. Room air conditioner must have a **SEER rating of 12** or higher to qualify.
- Offer limited to **TWO ENERGYSTAR** appliance purchases per customer account, per calendar year on a first-come, first-served basis, effective until the funding is exhausted or the program is discontinued.
- New construction projects (any construction after January 2008) or home additions do not qualify for rebates since all usage in new construction or additions is considered an additional draw on Danvers' energy use. **Rebates are for replacement only** and old fixtures cannot be reused by applicant or other Danvers residents.
- Danvers Electric Division reserves the right to inspect the installation on premises.
- Applicant agrees and understands that the Danvers Electric Division does not guarantee that the installation of an EnergyStar rated fixture will result in energy savings, as site-specific energy consumption varies.
- Danvers Electric Division does not warrant, endorse or assume liability for the quality, performance or safety of the contractor and/or retailer or wholesaler or performance of any appliance or fixture. Responsibility for product chosen is solely the applicant's.
- Individual rebates more than \$600 may require the issuance of a 1099 Tax Form.

Please return the completed application to:

Rebate Program
Town of Danvers—Business Division
2 Burroughs Street
Danvers, MA 01923

- * Rebate processing will take 8-10 weeks from the receipt of a **completed** application.
Rebate checks will be sent upon application review, processing and approval.

When considering purchasing a new appliance, remember that appliances come with two price tags: what it costs to take it home and what it costs to operate and maintain each month. EnergyStar qualified appliances incorporate advanced technologies and use 10 to 50 percent less energy than standard appliances. EnergyStar qualified appliances save energy, save money, and help reduce emissions of greenhouse gases and air pollutants at the source. Making your home more energy efficient with EnergyStar can help to reduce high energy bills, improve comfort and help to protect the environment.
