

PRIVATE AREA LIGHTING RATE (PAL)

AVAILABILITY

Service is available under this rate to any Customer of the Electric Division for the purposes of private area lighting.

BILLING RATES

The following monthly rates will be charged for each lamp installed on the Customer's premises, and may be billed separately or combined with billing for general service at the sole discretion of the Electric Division.

100 watt HPS Cobrahead.....	\$17.37
250 watt HPS Box.....	\$23.56
400 watt Mercury Box.....	\$28.30

CONDITIONS OF SERVICE

Installations using overhead wiring, standard fixtures and located on existing poles are included in the billing rates. Where additional poles are necessary for lighting installation, the Electric Division will install one pole for each luminaire at the Customer's expense of \$100.00 per pole.

Lamp replacement and maintenance will be performed as soon as possible following notification by Customer of the need for such service.

The Customer shall provide without expense or cost to the Electric Division, all permits or easements necessary for the erection, maintenance and operation of the Electric Division's facilities, including the right to trim trees where necessary. The Customer hereby consents to the location of the Electric Division's facilities on the Customer's premises and agrees the Electric Division shall not be required to move its facilities to another location on the Customer's premises unless the Customer shall bear the cost thereof. All PAL fixtures, wiring, luminaires, and any other equipment including poles will be owned and maintained by the Electric Division.

Customer hereby agrees to take service for a minimum period of twelve (12) months.
