

MUNICIPAL GENERAL SERVICE DEMAND RATE MG-2

AVAILABILITY

Service under this rate is available for all municipal purposes where the average monthly usage exceeds 10,000 kilowatt-hours per monthly billing period.

BILLING RATES

Basic Monthly Charge

\$40.99 per monthly billing period

Demand Charge

\$9.00 per month per kilowatt of demand, as applied to the highest (15 minute) metered demand during the monthly billing period.

Energy Charge

4.276 cents per kilowatt-hour for each kilowatt-hour of energy metered during the monthly billing period.

Purchased Power and Fuel Adjustment Charge

As provided in the Electric Division's "Purchased Power and Fuel Adjustment Clause," applicable to all energy billed under this rate.

DETERMINATION OF DEMAND

The demand for each month under ordinary load conditions shall be the greater of the following:
The greatest fifteen (15) minute peak occurring during the month as measured in kilowatts, or
90% of the greatest fifteen (15) minute peak occurring during the month as measured in kilovolt-amperes.
