

LISTENING SESSION

March 10th from 7:00-8:00PM
Danvers Town Hall

The Town of Danvers was awarded a grant from the [Commonwealth's Municipal Vulnerability Preparedness \(MVP\) Program](#) to create a list of priority action items to advance the community's resilience to projected climate change impacts.

In December, a group of over 50 stakeholders met to identify strengths, vulnerabilities, and options on how to move forward. We'll be reporting the results of this workshop and seeking public feedback at an upcoming Listening Session.

Join us for an evening to provide your ideas for building a stronger Danvers. A presentation with interactive polling will be used as a basis for discussion.
